

MASKING TAPE

INTACT Masking tape is a pressure-sensitive adhesive tape manufactured from crepe paper with a rubber-based or acrylic adhesive. It is designed for temporary surface protection, paint masking, marking, bundling and general-purpose applications. The tape offers easy application, clean removal and good adhesion to commonly used construction surfaces.

PRODUCT SPECIFICATIONS

Product	Masking Tape
Material	Crepe paper
Color	Cream/white
Common widths	18, 24, 36, 48 and 72 mm *
Recommended application temperature	10°C to 40°C
Elongation at break	Approximately 7–12%
UV resistance	Limited; intended primarily for indoor use
Removal	Clean removal for short-duration applications
Shelf life	Approximately 12 months when properly stored

*Confirm the exact size against the approved INTACT product schedule before use.

KEY FEATURES

- ✓ Good adhesion to commonly used surfaces
- ✓ Easy to apply and tear by hand
- ✓ Conforms to straight lines and curved surfaces
- ✓ Helps produce clean paint edges
- ✓ Removes cleanly after short-term use
- ✓ Provides reliable temporary surface protection

STORAGE & HANDLING

Store in the original packaging in a cool, dry and well-ventilated area. Keep away from direct sunlight, excessive heat, moisture and chemicals.
